

MILAN R-I

Scan for details

MILAN R is a versatile architectural recessed downlight family developed around a compact square format, offering trim and trimless, as well as fixed and adjustable configurations within one coordinated design language.

Available in 7W and 9W options, the family delivers up to 815 lumens with high colour-rendering choices of CRI 90 or CRI 98. Multiple beam angles of 15°, 24°, 36°, and 45° provide precise optical flexibility for accent, display, and general architectural lighting.

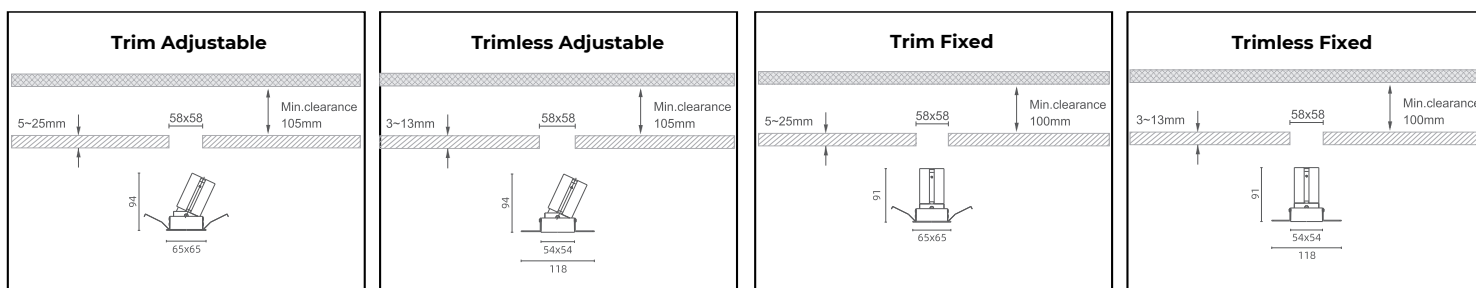

With extensive CCT options, IP20 or IP54 protection, optional emergency functionality, and control solutions including ON/OFF, DALI, 0/1-10V, TRIAC, Bluetooth, Zigbee, and Casambi, QUADRO R provides a highly adaptable solution for sophisticated lighting projects. A wide selection of reflector finishes and optical accessories further enhances both visual comfort and design flexibility.

Applications

Hotels, Clubs, Bars, Restaurants, Conference centers, Residences, Shopping malls, etc.
