

ORI NEVA 3D 1617 II

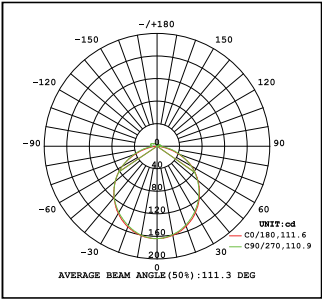

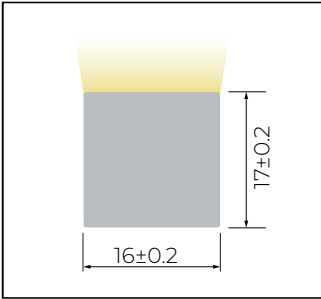

ORI NEVA 3D is a premium silicone co-extrusion flexible neon lighting solution designed to deliver seamless, dot-free illumination for architectural and decorative applications. Its refined optical performance and durable construction create continuous lines of light that enhance both indoor and outdoor environments with exceptional visual comfort.

Engineered for true three-dimensional bending, ORI NEVA 3D enables smooth vertical and horizontal curves, offering outstanding design flexibility for creative lighting concepts. The field-cuttable construction allows precise on-site customization while ensuring clean integration into a wide range of architectural details.

Operating on a safe low-voltage system, ORI NEVA 3D combines excellent UV resistance, chemical stability, and abrasion resistance with reliable long-term performance. Its high-quality silicone construction and weather-resistant design make it suitable for demanding architectural lighting applications in both interior and exterior environments.

Mounting dimension

Applications

Designed for premium architectural lighting projects, ORI NEVA 3D is ideal for building outlines, curved façades, landscape features, hospitality environments, retail spaces, residential architecture, public installations, bridges, artistic lighting concepts, and custom decorative applications where seamless illumination, flexible installation, and long-term durability are essential.
